(403) 831-2624

RESEARCH INTERESTS

- Network Neuroscience
- Computational Neuroscience
- Machine Learning in Medical Applications

EDUCATION

- **University of Calgary**
M.Sc. in Computer Science - Computational Neuroscience Specialization, Winter 2025 - Fall 2026 (Expected)
GPA: -
- **Amirkabir University of Technology**
B.Sc. in Computer Engineering, Fall 2019 - Summer 2024
GPA: 18.79/20 (3.92/4)
- **Allameh Helli High School**, National Organization for Development of Exceptional Talents
Diploma in Mathematics and Physics, Fall 2016 - Summer 2019
GPA: 19.1/20

RESEARCH EXPERIENCES

- Research Assistant, **Identifying and characterizing the minimal networks underlying behavior in *C. elegans*** - Winter 2025
Under the supervision of Assistant Professor **Dr. Emma Towlson**
- Research Assistant, **Alzheimer's Disease Detection Using Machine Learning** - Spring 2023
Under the supervision of Assistant Professor **Ehsan Nazerfard**

WORK EXPERIENCES

- Cyber Security Engineer, **Penetration Testing - Saba System Sadra** - Fall 2022 until Fall 2024
- Cyber Security Internship, **Penetration Testing - Saba System Sadra** - Summer 2022
- Frontend Development Internship, **Frontend Developer - Eduland/Danio** - Spring 2022

TEACHING ASSISTANCE EXPERIENCES

- Teaching Assistant, **Principles and Applications of Artificial Intelligence** - Fall 2022 and Fall 2023
Under the supervision of Assistant Professor **Mahdi Javanmardi**
- Workshop Assistant, **Advanced Programming** - Spring 2021
Under the supervision of Assistant Professor **Hossein Zeinali**
- Teaching Assistant, **Fundamentals of Computer Programming** - Fall 2020
Under the supervision of Assistant Professor **Bahador Bakhshi**

PROJECTS

- **Parasite Egg Detection in Animal Faeces** - Winter 2022
Utilized different object detection models (YOLO, Faster RCNN and RetinaNet) for a parasite egg detection task.

OTHER SCIENTIFIC ACTIVITIES

- Online Course, **Deep Learning Specialization** - Coursera
Offered by **deeplearning.ai** - certificate
- Online Course, **Computational Neuroscience** - Coursera
Offered by **University of Washington** - certificate
- Online Course, **Fundamental Neuroscience for Neuroimaging** - Coursera
Offered by **Johns Hopkins University** - certificate
- Online Workshop, **From Single Neuron to Learning in Networks** - Sharif Neuroscience Symposium
Offered by **IPM** - certificate

HONORS AND AWARDS

- Ranked as **top 6%** among more than 130 undergraduate students in Computer Engineering department, Amirkabir University of Technology - Fall 2023
- Achieved **top 0.2%** place among all applicants for the University Entrance Nationwide Exam (Approximately 200000 applicants) Iran. - Summer 2019

TECHNICAL SKILLS

- Programming Languages: **Python, Java, C/C++**
- Frameworks and Libraries: **Tensorflow, Keras, Pytorch, Numpy, ReactJS, Django, Cuda, OpenMP, NetworkX, Brain Connectivity Toolbox (BCT)**
- Tools: **Git, Jupyter Notebook, Google Colab, VSCode, Bash, Burp-Suite**

LANGUAGES

- Persian (Native)
- English (Fluent)
 - **IELTS (Academic): 8/9**
Listening (8.5/9), Reading (8.5/9), Writing (7/9), Speaking (7/9)
